

pc_emulator::PCConfiguration

```
classDiagram
    class PCConfigurationImpl["pc_emulator::PCConfigurationImpl"]
    class PCConfiguration["pc_emulator::PCConfiguration"]
    PCConfigurationImpl --|> PCConfiguration
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'pc_emulator::PCConfigurationImpl'. A blue arrow points upwards from this box to a gray box at the top labeled 'pc_emulator::PCConfiguration'. This represents that 'PCConfigurationImpl' inherits from 'PCConfiguration'.
