

pc\_emulator::Insn

```
graph BT; EQ[pc_emulator::EQ_Insn] --> INSN[pc_emulator::Insn];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray-shaded box labeled 'pc\_emulator::EQ\_Insn'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'pc\_emulator::Insn'. This indicates that 'pc\_emulator::EQ\_Insn' inherits from 'pc\_emulator::Insn'.
